What will we do in here?

Language is acquired through compelling, repetitive comprehensible input...meaning you have to be interested in a message you can understand & the language will soak in.

Thus, we will do a LOT of listening (music, podcasts, video series, movies, stories) and reading (magazines, blogs, articles, poems, short stories, novels, plays). These will focus around themes that are relevant & interesting for young people in our world.

The goal is that by the end of this course, students will be living in the Intermediate High area, some making reaches into Advanced Low.

At the Intermediate High level, you can converse about most familiar themes and understand the main ideas of most written & spoken messages on common topics.

Materials for class:

Notebook or paper  
Binder (preferred) or
